

Parham Airfield Museum

Charity No. 1201587

Safety and Access for Visitors

We want everyone to have a safe and enjoyable visit. Please do not visit if you feel unwell or have tested positive for an infectious disease.

If you need help of any kind, please ask the nearest staff member.

- Drivers should proceed past the Tower and park in the visitor car park, avoiding grass areas unless directed by a member of staff. Vehicles are manoeuvred and parked at owner's risk. Please observe the 15 mph speed limit.
- Pedestrian entrance is via the road bordered with white concrete hoops leading to the Moller Building, café and shop.
- Please give others space in confined areas. Try to follow the arrows in narrow walkways. If we are busy, you may be asked to wait or see another part first.
- Face masks are available for anyone wishing to wear one.
- The café and shop are open. Refreshments may be consumed inside or out. Bring your own picnic if you wish.
- The use of hand sanitisers is encouraged, particularly when about to purchase refreshments.
- We encourage fresh air. There is an air purifier in the cinema. Light cleaning of surfaces is done at intervals during the day.
- Toilets are checked regularly and cleaned if necessary.
- First Aid supplies are in the café, tower ground, KIndred Building and the glass house on the top floor. At least one First Aider will normally be on duty during your visit.
- If an alarm sounds, leave by the nearest exit and assemble on grass picnic area by car park.
- Please let staff know if you have any additional needs. We have a disabled toilet and baby changing. Two wheelchairs are available for free loan on site. Access to upper floors in the Tower may be difficult for some but there is a handrail each side of the staircase.
- If you feel unable to ascend to the glass house on the roof or go down to the underground replica operational base, there other ways to find out what there is to see!
- We welcome well behaved dogs.
